Experience

Freelancer
Webflow Developer | 01/2025 - 12/2025

- Designed and developed responsive, visually polished websites using Webflow
- Collaborated directly with clients to translate requirements into approved designs
- Built and launched a complete client website for a hospitality/retirement resort
- Provided post-launch maintenance, security updates, and content changes
- Trained clients on website usage and handled ongoing support requests

Calibre Fibre Engineering
FTTH Data & Systems Support | 01/2020 - 03/2026

- Registered and managed GIS locations for Fibre-to-the-Home (FTTH) deployments
- Compiled and maintained fibre splicing data per location to support network rollout

- Loaded and validated data using internal FTTH web tools
- Ensured accuracy and consistency of fibre network records for planning and execution
- Worked closely with technical teams to support large-scale fibre infrastructure projects

Skills

HTML5, CSS3, JavaScript (Basic / Beginner level), Webflow, VS Code
